NEW COAL BEDS FOUND;
MINE CUTS EXPENSES, INCREASES OUTPUT

NEW COAL BEDS AT KATOWICE -- Zycie Warszawy, No 113, 26 Apr 49

New coal beds which contain millions of tons of high-grade black coal were recently discovered in Katowice. Three mines, Debiensko, Radzikow, and Kleofas, will exploit the new beds. To reach this coal, the present shafts at the three mines will be deepened.

OPERATING COSTS CUT -- Trybuna Ludu, No 101, 12 Apr 42

The Szombierki mine in the Slask-Dabrowa coal basin, which pledged to save 70 million zlotys in operating costs during 1949, now expects to exceed this amount.

Output per man-day during March was 2.9 percent greater than for January. The first 10 days in April showed a further increase.

Wood consumption in the mines during March has been reduced by 0.28 cubic meters for every 100 tons of extraction. Because of this, 2 million planks have already been saved.
